

## **Course description:**

Visit and enjoy Woodbank Gardens, a garden spanning half a century of collecting rare and unusual plants. Join Ken and Lesley in their magnificent garden and learn from the experts.

The garden includes plants from overseas nurseries from S. America including Ecuador and Chile as well as New Zealand, England, Kenya, South Africa and China. Ken and Lesley have collected seeds and plants on plant collecting trips for many years.

Ken and Lesley will also discuss soils, watering, fertilising, climatic conditions, diseases and pests during the session.

## **Your tutor:**

Ken Gillanders has been a nurseryman for nearly 50 years and since developing Woodbank Nursery in Tasmania with his wife, Lesley has concentrated on Gondwana plants. He has spoken at conferences in England and New Zealand on this subject as well as given talks to local horticultural societies. He has been to South America and New Zealand five times to study the flora.

## **Important information:**

- Children must not accompany adults to Adult Education classes.
